

Wall of fame

Going back in time and see what we did !

1978

Tumbled stones became Hug stones

As First we introduced the word Hug stone, and with this normal tumbled stones suddenly got a name and a feeling.

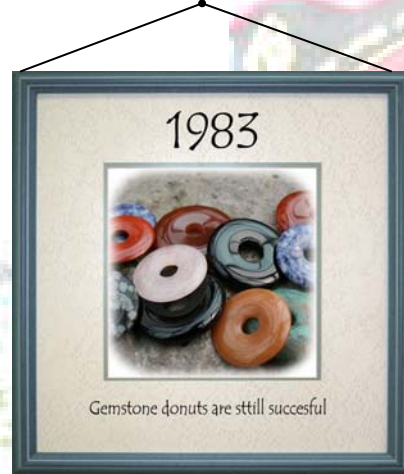

1981

We invented the gemstone tealights

As the very First in the world we invented the gemstone tea lights, a rough piece of gemstone with a drilled hole, nowadays exported to 85 countries worldwide !

1983

Gemstone donuts are still successful

Gemstonedonuts, with the right ones you can still have a lot of succes nowadays.

As one of the oldest stone whole sellers from Europe our name is connected with many novelties and inventions !

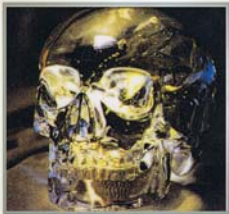

1 Timmersgems is for 30 years original, innovative and creative with gemstones.

2 Timmersgems is a no-nonsense company and sells it's products in 16 countries . 60% is export and we are doing well on our home market.

3 We are using the best stones and our strong point is that we pack most things well and provide lots of information about our products

1984

The first producing real crystal skulls

Fascinated by the story of the skulls we produce our First skulls "peace elders" or also called death skulls in China. Nowadays we export the skulls to 17 different countries and also to Canada and England.

1986

As follow up on the gemstone skulls we produced the Alien heads / UFO's from gemstone. These were not as successful as the skulls dough we still export them to Belgium and Ireland .maybe not such a surprise because both countries were visited by aliens .

1992

Winner of Germanies great design price

As First in Europe we sold the Lapis Lazuli globes, the same year we won the First price on the German design festival.

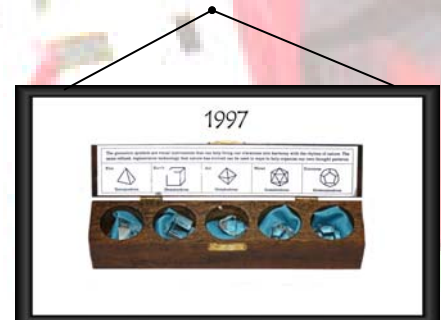

1994
